

To Whom it May Concern (FCC): We are enthusiastic XM listeners. We subscribe because we got tired of the drivel and nonsense on other radio stations. We have been very pleased and have installed it on two cars in addition to our home. XM is with us when we drive 1300 miles to Florida and elsewhere. The weather and traffic reports are essential for us and not available anywhere else. The reception going through the mountains of West Virginia and other areas is superb. We never enjoyed radio this much! We feel that XM radio fills a need for many people that other stations do not satisfy. We urge you to reject the NAB's petition 04-160 and allow XM to provide the kind of programming that we want and are willing to pay for. Thank you. R. Prong
